

# Solid, Substantial, Progressive WOODLAND HEIGHTS

**This Small Map** shows sales made prior to Jan. 1, 1909. The larger one shows the steady march of the home-buyer since that date; and the number of homes has risen from about thirty-five to nearly a hundred. We believe Woodland Heights LEADS in lot sales and development work during this period of less than two years.

## WATCH US GROW

Discriminating, farsighted buyers are picking up these properties rapidly. We have had three inquiries the past week for **solid block** residence sites near the river.

*An Investment in Woodland Heights is Better than a Savings Bank, and Safe.*

Where else can be found such high-class, developed property for anything like our prices? Take Forest Hill cars to 31st Street and see this **most beautiful** all-the-year residential section. The views are superb, the drainage unexcelled and the **problems of sewerage and water supply** have been solved. Granolithic sidewalks and other city conveniences.

A fortune has been spent in developing Woodland Heights; this work is still going forward and you get the benefit thereof.

We shall be glad to tell you about these great bargains and how you may take advantage of our easy-payment plan.

## OFFICE: 919 MUTUAL BUILDING,

Telephone, Madison 2223.

A. M. GOVER, Sales Manager.
